- MVP Presentation at Seed Round
- Team Expansion
- Intensified Product Development
- Community Building & Marketing Strategy
- Strategic Partnerships
- Early NFT Collection Launch

Intensified Product Development

- First Beta Test for NFT Holders

ROADMAP BREAKDOWN

Q1: FOUNDATION & PREPARATION

/Team Formation & Onboarding/

Our priority is to assemble a strong core team of developers, designers, and blockchain experts who will drive the project forward. Efficient onboarding and clear workflows will ensure seamless collaboration.

/Securing Funding & Grants/

We will focus on securing initial funding through strategic investors and grant programs to support development and growth. Well-prepared pitch materials and networking will play a key role in this phase.

/MVP Development Planning/

Establishing a clear development roadmap with well-defined milestones and technical specifications to ensure smooth execution and a solid foundation for the MVP.

Q2: BUILDING & COMPLIANCE

/MVP Development Completion/

Finalizing the core functionalities of the MVP with a focus on performance, stability, and readiness for early testing and investor presentations.

/Legal Structuring and Compliance/

Ensuring regulatory compliance by completing company registration, securing trademarks, and establishing legal frameworks to support future expansion.

Q3: GROWTH & EXPANSION

/MVP Presentation at Seed Round/

With the MVP ready, we will present it to investors to secure additional funding and demonstrate Zenithra's potential and market fit.

/Team Expansion/

To support the next growth phase, we will onboard additional specialists in marketing, community management, and technical experts.

/Intensified Product Development/

Building upon the MVP, we will focus on enhancing core features and introducing new functionalities. Key development priorities include creating an in-game marketplace for seamless asset trading and expanding the virtual world map to deliver a richer and more immersive experience

/Community Building & Marketing Strategy/

Expanding Zenithra's presence through targeted marketing campaigns, social media engagement, and influencer partnerships to attract and retain users.

/Strategic Partnerships/

Forging collaborations with key blockchain and gaming industry partners to expand the ecosystem and create new opportunities for growth.

/Early NFT Collection Launch/

Introducing an exclusive NFT collection (100 pieces) to reward early adopters and create excitement within the community.

Q4: SCALING & USER ENGAGEMENT

/Intensified Product Development/

Further optimization and feature expansion to enhance the user experience and scalability of the platform.

/First Beta Test for NFT Holders/

Launching an exclusive beta phase for NFT holders to gather valuable feedback and fine-tune the platform before public release.
